ONLY FOR  
ZURICH RANGE

Innovative design can both be a break-through product or service, and a redesign of an existing product or service.

A break-through product adds a before unseen value and function to the market and the user, while a redesign improves an existing product.

# FOR INSPIRE LIVING

**ZURICH**  
A SWITCH THAT ENLIGHTENS YOUR LIFE

**ZURICH**  
A SWITCH THAT ENLIGHTENS YOUR LIFE

The switches are made with precision  
to create the perfect synergy of beauty  
and splendor.

---

Zurich range is designed for modern Audience. the elegant shapes that suit The test of your architecture.

Unmatched Sophistication

EVERYTHING ELSE HAS BEEN LEFT BEHIND. THE IDEA OF HOW A SWITCH SHOULD-BE, HAS TRANSFORMED TO AN IDEA OF HOW A SWITCH COULD-ALSO-BE AND THIS HAS CHANGED PERSPECTIVES. INTRODUCING ZEBRA , THE FINEST BALANCE BETWEEN FUNCTION AND FORM. THE COMPLETELY FLAT FORM OF THE MECHANICAL SWITCHES HAS REDEFINED NORMS COMPLETELY. THE BRILLIANT FUNCTIONALITY OF THE SWITCH ADDS EASE TO LIFE AND SPURS LUXURY IN A DAILY LIVING

# Door Bells

A doorbell is a signaling device typically placed near an entry door to a building. When a visitor presses a button the bell rings inside the building, alerting the occupant to the presence of the visitor. Although the first doorbells were mechanical, activated by pulling a cord, modern doorbells are electric — they are actuated by an electric switch.

# Spike Guard

Spike Guard widely demanded for their distinctive features that include elegant design, reliability & longer durability. With a wide range to choose from, Spike Guard are simple to plug & connect & are widely appreciated for their smooth functionality.

# Extension Box

The Graceful wide range of flex box exclusively designed for a safe home use. Outfitted with international socket outlets. they let you use various plugs from around the world. The high grade raw materials ensure longevity and the compact size makes it easier for travel.

# Your reliable partner for intelligent solutions.

We Know What Best Suits Your Safety Demand  
Koncept Is Serving The Country With Premium & Intelligent Safety Solution

#### CONSTRUCTION & FEATURES:

- Good Design
- In accordance with IS/IEC 60898-1
- Available in B & C curves
- Rated short circuit breaking capacity: 10000A(10kA)
- High speed and high breaking capacity mechanism
- Power loss values are much lower than the specified values of IS/IEC standard making in the most energy-efficient MCB
- Trip free mechanism
- No Line - Load bias
- Rapid action
- Provision for auxillary part attachment

#### MINIATURE CIRCUIT BREAKERS (MCBs)

**MCB's** or miniature circuit breakers are electro mechanical devices which protect an electric circuit from an overcurrent. The overcurrent, in an electrical circuit, may result from short circuit, overload or faulty design.

An MCB is a better alternative to a fuse since it does not require replacement once an overload is detected. Unlike fuse, an MCB can be easily operated and thus offer improved operational safety and greater convenience without incurring large operating cost.

The surface of MCB has been designed in such a way that does not allow dust to settle on its surface. The MCB thus retains its new look for years. Miniature circuit breakers are used to protect lower current circuits and have the following specifications.

- Rated Current Rating - Amperes
- Short circuit Breaking Current Rating - Kilo Amperes (KA)
- Operating Characteristics - 'B' or 'C' curves

PLEDGE TO KEEP YOUR APPLIANCES **Safe from**  
 OVERLOAD AND SHORT-CIRCUIT !

## RESIDUAL CURRENT OPERATED CIRCUIT BREAKERS (RCCBs/ELCBs)

RESIDUAL CURRENT PROTECTION DEVICES

The flow of current through electrical facilities always involves risk. Poorly insulated equipment, faulty wire & incorrect use of an electrical device cause currents to flow through the wrong path (i.e. through the insulation) to the earth. This current is called 'Leakage Current'. Earth leakage is an electrical hazard and is responsible for electrical shock and fire risk.

Earth leakage and its associated hazard can be prevented by Residual Current Circuit Breaker (RCCB), also popularly known as Earth Leakage Circuit breaker (ELCB).

Range - 25A-40A-63A  
Sensitivity - 30mA, 100mA, 300mA  
Execution  
Double Pole (2P). Four Pole (4P)  
specification  
IS 12640 (Part-1), IEC EN-61008-1  
Type - AC

### CONSTRUCTION & FEATURES:

- Simple and Robust operating mechanism
- Test button for regular inspection
- Truly current operated-operation even at nominal voltage
- RCCBs/ELCBs are available in DP and FP versions from 25A to 63A rating with 30 mA, and 300 mA sensitivity
- Operates on Core Balance current Transformer (CBCT) principle

## PHASE SELECTOR

# **DB-DOUBLE DOOR**

### Salient Features:

- Aesthetically designed to blend well with the latest interior trends.
- Complete Shock Proof by earthing on door for extra protection.
- Fully equipped supplied with busbar, earth links, neutral links and inter connecting links.
- Ample wiring space is provided to ensure proper distribution of Neutral and Earth wires.
- Knock outs on all sides.
- Double door DB with IP43
- G2 Distribution Board are specially made suitable for G2 MCBs, RCCBs, Isolators etc.

**Db's** & Phase selector comes with protection IP 43, made of Steel Sheet (Phosphatised & powder coated) with Din rail, Shrouded neutral link, insulated bus bar, earth link and also with High integrity clean earth kit as accessory for Electronic/IT installation to meet international safety standards.

Color Available : Black, Yellow, Blue, Green & Red

EVERYTHING IS **BETTER** WITH AN **ART**

Innovation design can both be a break-through product or service,  
and a redesign of an existing product or service.
